NOTE: It's so important to clear out your vehicles and remove items of value, items with personal information and the registration and insurance documents. Carry the proof of insurance and registration in your wallet; they do not have to be in the vehicle when it is parked. APD will accept a cell-phone insurance app proving you are insured or a photo of your proof of insurance; APD does need to see your original registration if you are pulled over. Removing items and locking up would dramatically drop our numbers of auto burglaries. When you practice crime prevention strategies with your property you prevent burglaries.
